

# PERCENT YIELD AND PRE-LAB CALCULATIONS

---

Target: Today I will be able to explain and calculate percent yield and explain how it relates to actual (experimental) and theoretical yields.

**Pg. 139**

# Lab Groups

- Choose a lab group of no more than three people.
- Ensure one person in your group is able to bake the cookies Tuesday or Wednesday night and bring to class Thursday.
- Once I tell you to do so, quickly sit with your group members.
- All pre-lab questions and calculations **MUST** be completed prior to beginning the lab tomorrow.

# Homework

- Complete all pre-lab questions and calculations on a SEPARATE piece of paper. Staple to the lab.
- Due Block Day, **3/4/14-3/5/14**
- **Dress in Lab-appropriate clothing for the lab.**
- **Extra Credit Opportunity: Bring chocolate chips or butter to class Monday. One person for eggs, sugar, and flour (extra credit also available by assisting in lab clean-up).**
