

LIMITING REACTANT LAB

Review of Lab Safety Expectations

- Refer to **page 97** of notebook.
- A few additional notes about this lab:
 - Complete this lab **AT YOUR DESKS** to avoid chemical contamination
 - Mix dry ingredients first in 1 gallon ziplock bag
 - Mix wet ingredients in bowl and add dry ingredients
 - See me for chocolate chips
 - Store dough in fridge, pick up by 3pm
- Once finished, clean your desks, wash bowels and begin work on post-lab questions on **SEPARATE** piece of paper.

Exit Ticket

On your post-it note, choose either:

One thing/topic you totally and completely understand from this past semester

OR

One thing/topic you feel pretty comfortable with, but are not totally, 100% clear on.

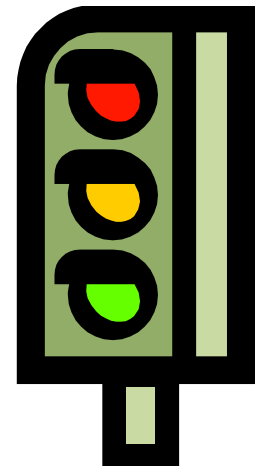

OR

One thing/topic that you do not understand at all.

Write your **name & box #** on the back of the post it.

Use **academic language** and **complete sentences**!

Stick it on the stoplight on your way out the door.

Homework

- Complete Lab questions 1, 3 and 7.
- Ensure all pre-lab questions and data table 1 are complete and ready to turn in Thursday, 3/6/14.
- Update notebook, ensure all pages are glued in, table of contents and stamp sheet are up to date and all assignments are complete. **Due Friday, 3/7/14**
- Check class website for missing notes, assignments, handouts, etc.
